

Efficy

This integration requires the following information provided to Dstny

- API key (*a long combination of letters and numbers created by Efficy*)
Login to the Efficy designer URL (Contact Efficy to get admin credentials to login)
<https://dstny.efficystest.cloud/designer>
- Under Content Management, choose API Keys
- Click the plus sign at the top right of the window to add a new API key
- Note: "Allowed APIs" must include "json". By using an asterisk "*", all APIs are enabled
- URL (*the address used to access the Efficy instance in the format <https://efficy.com>)*)
- These values are created in the Efficy Designer. Documentation can be found here:
https://help.efficy.io/edn/dev/crft_11_seamlessapisessions
